purple circle  
red circle

## Clancy the Clown

Clancy was a clown in a circus. Every day he put on a funny face that made the children clap and laugh. Then he did summersaults and rode a pig. Clancy blew a trumpet and that made the children clap and laugh too.

One day Clancy went to put on his funny face. He put on his **silly eyes**. He put on his **happy mouth**. He put on his **crazy hair**. But Clancy Clown couldn't find his funny nose.

"I know my nose," said Clancy Clown. "My nose is round and red. Where is my funny nose?"

Clancy found a nose that looked like this. It was a **blue square** nose. Was this Clancy Clown's nose?

"No," said Clancy Clown. "This is not my nose. This is a blue square nose. My nose is round and red. I know my nose!"  
(remove nose)

Clancy found a nose that looked like this. It was a **green triangle** nose. Was this Clancy Clown's nose?

"No," said Clancy Clown. "This is not my nose. This is a green triangle nose. My nose is round and red. I know my nose!"  
(remove nose)

Clancy found a nose that looked like this. It was a big **yellow round** nose. Was this Clancy Clown's nose?

"No," said Clancy Clown. "This is not my nose. This is a round nose, but it's big and yellow. My nose is round and red. I know my nose!" (remove nose)

Clancy found a nose that looked like this. It was a small **purple round** nose. Was this Clancy Clown's nose?

"No," said Clancy Clown. This is not my nose. This is a round nose, but it is tiny and purple. My nose is round and red. I know my nose!"

Then Clancy found a nose that looked like this. It was a **round** nose. It was a **red** nose. Was this Clancy Clown's nose?

Clancy Clown put on his funny nose and went out to turn somersaults and ride a pig and blow his trumpet so the children would clap and laugh. Clancy Clown knows his nose—and now so do you!
