5 sandcastles

Five Pretty Sandcastles

Kids can wave their arms for each whoosh to simulate the sandcastles being washed away.

Five pretty sandcastles standing on the shore,
The wave came crashing (whoosh!) and then there were four.

Four pretty sandcastles standing by the sea,
The wave came crashing (whoosh!) and then there were three.

Three pretty sandcastles standing by the ocean blue,
The wave came crashing (whoosh!) and then there were two.

Two pretty sandcastles standing in the sun,
The wave came crashing (whoosh!) and then there was one.

One pretty sandcastle just out of reach,
The wave came crashing (whoosh!) but it stayed on the beach!
